SUMMARY

I am Sephin, based in Kochi/Chennai. A highly passionate and productive individual, confident in leading projects, solving critical problems and providing efficient solutions. Currently tinkering with [Flutter](#).

WORK EXPERIENCE

Frontend Developer & UI/UX Designer, MyMess Project

Mar 2023 - Aug 2023

Utilized technologies such as ReactJS, NodeJS, Figma, UI/UX Design principles, and MySQL along with GitHub to design and develop the interface, frontend and backend of the application.

Product Owner, Drone Engineering Team

Oct 2023 - Feb 2024

Managed project for Software Systems team, leveraging technologies such as JIRA, Atlassian, Scrum Model etc. Primarily focused on development of software interface for the app.

EDUCATION

2021 - present	BTech IT at School of Engineering, CUSAT	(GPA: 9.75)
2020 - 2021	Class 12th CBSE	(82.18 %)
2018 - 2019	Class 10th CBSE	(86.80 %)

PROJECTS

MyMess - Hostel Mess Management Application

[Link to Demo](#)

Project leader, UI/UX Designer and Front-end Developer for the app, aiming to completely digitalise and automate the student hostel mess management systems.

Drone Engineering Project - Software Systems

Worked as product owner for developing software systems and interface of a drone based delivery system. Leveraged tech such as Atlassian and JIRA.

Thistle - Campus Community App

[Link to Demo](#)

Ongoing project, a platform for students to connect on events around the campus, while also having features such as event hosting, live events map and students to find activities. Working as flutter dev.
